v1.0
Last updated: 2015-11-26

NOTES:

1. The symbol "*" signals that the concept is extensively discussed in
   the associated video

2. Abbreviations used:
   syn. synonym

3. "(Wikipedia)" means that the concept has a Wikipedia page

4. In one instance, we abstracted the actual concept from the video and
   indexed instead its parent concept. For example "Rank-4 approximation" is
   indexed as "low-rank approximation of a matrix".

| (vertical bar) 04.01
() (parenthesis means "optional") 04.01
(*) repetition 04.01
accuracy
   as an evaluation method 04.05
Adjectival Phrase (ADJP) Q05
adjective ordering 04.01
   also: adjective order
agreement
   agreement in number 04.04
   verb agreement 04.04
alignment of text with other signal (time series) 03.07
ambiguity
   coordination scope 05.01
   gaps 05.01
   PP ambiguity 04.01, 05.01
   syntactic ambiguity 04.03
